

## Raising Awareness of Prostate Cancer

September is Prostate Cancer Awareness Month and all men should be aware of information regarding this disease, as only skin cancer is more frequently diagnosed in the United States. Close to 10 million American men may have prostate cancer and are not aware of it. Men should be tested every year beginning at their 50th birthday, especially if there is a family history of prostate cancer. As in every cancer, with early detection and treatment, chances of surviving are improved. Unfortunately, the most common symptom of this cancer is no symptom at all, which is why testing is so important.

What is Prostate Cancer? It is cancerous growth on the prostate gland, a gland about the size of a walnut located under the bladder around the upper part of the urethra. The urethra carries urine and semen through the penis out of the body.

Cancerous cells start their growth into

tumors on the gland and can spread to other parts of the body. There are several options for treatment and include: Radical Prostatectomy, External Beam Radiation Therapy, Hormone Therapy, Watchful Waiting and Chemotherapy. Fortunately, within a small radius of Orangevale, there are several Prostate Cancer Support Groups that help advise newly diagnosed patients through the process of choosing treatment. These groups offer support to both the patient and spouse and are at no cost to the patient. For listings of groups, please call this paper at 990-9988.

California provides free prostate cancer treatment of low-income men with little or no health insurance through a program called IMPACT: Improving Access, Counseling and Treatment for Californians with Prostate Cancer. In Northern California the numbers are 1-866-461-5023 or 1-866-549-4919.

Reverse Mortgage ~ Continued from page 8

with anything else where money is involved - it is wise to be prudent and informed about how to protect your own financial interests!

Fellow Orangevale homeowners of a "preferred age" are taking a closer look at reverse mortgages for a variety of reasons among which:

- They want to eliminate monthly mortgage payments.
- They desire to maintain their dignity and independence.
- They wish to improve their quality of life.
- They are providing financial aid to their children and grandchildren with education costs.
- They want to take that motor home out of storage and, after filling the tank with gas, still have money for food!

I welcome your questions, and please feel free to contact me if you would like to discuss your needs or have concerns for a family member or friend. I am available at 916-204-

9585, or you can write me at American Pacific Reverse Mortgage, 3000 Lava Ridge Ct., #290 Roseville CA 95661, or through Orangevale Country Journal.

By the way, don't call me to help you with a tooth ache, I only provide information on reverse mortgages!

## Dr. Peter LoPresti, Committed to his Community and his Patients

Dr. Peter LoPresti has been in business at the same location in Orangevale for 20 years and has been a continuous member of the Chamber of Commerce the entire time, even serving as Vice-President of the Chamber. Dr. LoPresti and his wife Trish were married in 1990 and have raised two daughters, Mary and Cindy in Orangevale. The girls attend Bella Vista High School and are involved in water polo, swimming and student government activities. Cindy and Mary are also certified lifeguards at the Orangevale Community Pool. Dr. Peter is currently a board member of the Bella Vista Aquatics Board as the swim representative. The entire family enjoys snow skiing, hiking, and scuba diving. Dr. LoPresti also enjoys gardening and cooking.

He graduated from CSU, Chico and then obtained his Doctorate of Chiropractic from the Los Angeles College in Whittier, CA where he received the President's Award for Leadership. When asked just what he likes best about his chiropractic career, Dr. LoPresti stated, "I truly enjoy the opportunity to meet and get to know the wonderful people of our community and assist them in the quality of their lives with better health through chiropractic." He spends many hours in professional education each year, eager to maintain and improve his ability to provide exceptional chiropractic care to his patients and is active in the California Chiropractic Association. Dr. LoPresti offers healthcare with an emphasis on courtesy, friendliness and respect for all his patients and invites all with health care concerns to call his office and discuss how chiropractic care can help improve the quality of their lives.

## If I can make \$505.18 Per Hour, by investing in real estate, anyone can

Robert Minton,  
Broker—Real Estate  
Investor

Robert Minton went from working 65+ hours a week as a CPA to building a multimillion-dollar real estate portfolio. Now he is making life-changing money and experiencing zero work stress. "I accomplished this by using an amazingly simple secret I discovered by accident." Now he's willing to sharing

that discovery with you." "Life wasn't always this good. When I first started out, I was working ridiculously long hours and hating my life. As I was buying my first home to move into it with my wife, my real estate broker couldn't contain his laughter when reviewing my pay stubs. He made several thousand of dollars each month from his real estate investments.

I got paid a salary of \$538 a week. Since I was working about 65 hours a week, I was averaging a whopping \$8.27 per hour. Needless to say, I was exhausted and frustrated.

"But then a remarkable thing happened. This real estate broker shared an "embarrassingly" simple and easy investing approach for me to try myself. Long story short, I applied what I learned and a magic, money-making, stress-reducing road map appeared right before my eyes. Quite frankly, I was stunned by how much money could be made with so little work involved.

"My little real estate business receives checks totaling \$15,324 each month and I now make more than many highly paid doctors or lawyers, averaging \$500 per hour. Best of all, I have finally discovered the perfect balance between being with my family (my wife and I have two kids) and working in my real estate business.

"I kept our real estate investing system and

stress-reducing secrets internal and private for years. Now we have absolutely perfected our system and made it so simple and easy to use, my kindergartner (with a little help from mom) could manage it. Plus, this simple real estate investing system works for just about anyone who tries it.

"Recently, I decided to reveal my whole Real Estate Investing System to a few qualified real estate investors in order to build a special membership within the real estate investing community. I will be limiting the number of real estate investors using it - first come, first served."

If you're serious about becoming a success in real estate investing, Robert will send you a Free 28-page Report: Special and Confidential Profit Report for Preferred Members ONLY. The report includes proof of his success and that it can work for you. Call his toll-free voice message at 1-888-430-3625, enter ID code 1052, and leave a message with your mailing address.
